Top 5 by Revenue

Thai Chicken (43434) generated the highest revenue closely followed by **BBQ Chicken (42786)**

The Top 5 pizzas each generated **35K+** in revenue, showing strong customer demand

Bottom 5 by Revenue

Brie Carre generated the lowest revenue (11.6K), indicating weak sales performance.

Revenue among the Bottom 5 pizzas ranges from **11.6K** to **15.6K**, well below the top-performing pizzas.

California Chicken and **Spicy Italian** generate strong revenue despite lower purchase frequency. This suggests they may have a higher average selling price or customers purchase them less frequently but at higher value.

Hawaiian and **Pepperoni** have strong customer demand but contribute comparatively less revenue. This indicates an opportunity to increase revenue through premium add-ons, meal bundles, or targeted promotions rather than immediately increasing prices.

Popular by Orders

Star Performers

Thai Chicken, **BBQ Chicken**, and **Classic Deluxe** appear among the top performers across multiple metrics.

They rank highly in revenue while also maintaining strong order and quantity volumes.
